

THE Sustainability Impact Rankings 2027 | Criterion 17.2.1

17.2.1. MGUMST's Role in National and Regional SDG Policy Development

Mahatma Gandhi University of Medical Sciences & Technology (MGUMST), Jaipur, has emerged as an active contributor to the formulation of national and regional policies related to the Sustainable Development Goals (SDGs). Through its research, clinical expertise, collaborations and community-based initiatives, MGUMST plays a key role in identifying health challenges, developing policies and guidelines, and supporting the monitoring and evaluation of SDG-related interventions.

Working in partnership with central and state government agencies, non-governmental organisations (NGOs), professional societies and other stakeholders, the University promotes evidence-based policymaking and adaptive management practices that foster sustainable development. In 2025, these relationships were carried forward through 32 Memoranda of Understanding (MoUs) in force during the year.

1. Identifying Key Challenges

MGUMST actively engages in identifying critical health issues linked to the SDGs, particularly at the intersection of public health, equity and access to care. Its clinical departments, research centres and community programmes conduct studies, screening and fieldwork to shed light on these challenges.

For example, Prof. Hemant Malhotra, Head of Medical Oncology at Sri Ram Cancer & Superspeciality Centre (SRCC), MGMCH, was a member of the National Academy of Medical Sciences (NAMS) task force that reviewed breast cancer diagnosis and treatment across India. The task force highlighted nearly 200,000 new breast cancer cases each year and found that diagnostic services are concentrated in urban centres, leading to delayed diagnosis in rural areas. Under its MoU with the Indian Council of Medical Research (ICMR), SRCC also runs a Hospital-Based Cancer Registry that records the pattern of cancers seen in the region.

In the community, Jaipur Swasthya Charcha sessions held with the Disha Foundation, a government school and the Pension Directorate, Government of Rajasthan, brought out local concerns on learning disorders, adolescent health and HPV, and the care of older people.

2. Policy and Strategy Development

MGUMST contributes to policy formulation by offering scientific evidence, research data and technical expertise that support the development of policies and guidelines aligned with the SDGs. Faculty collaborate with national bodies and professional societies on initiatives related to good health and well-being (SDG 3), quality education (SDG 4) and reduced inequalities (SDG 10).

For instance, the NAMS task force report, approved by the Directorate General of Health Services (DGHS) and the Ministry of Health and Family Welfare, Government of India, recommends more diagnostic mammography units and pathology laboratories, wider training in oncology subspecialties and nationwide screening programmes for early detection. In 2025, MGUMST faculty also co-authored national guidelines and consensus statements of the Indian Society of Medical and Paediatric

Oncology (ISMPO), the Indian National Association for the Study of the Liver (INASL) and the Indian Psychiatric Society.

Through its MoUs with the Composite Regional Centre (CRC), Jamdoli and the National Institute for Locomotor Disabilities (NILD), Kolkata, both under the Ministry of Social Justice and Empowerment, the University provides joint research and expert input on rehabilitation practice for persons with disabilities.

3. Modelling Future Scenarios

MGUMST uses data from its registries and clinical programmes to support projections of disease burden and the likely outcomes of interventions. Data from SRCC's Hospital-Based Cancer Registry are reported to the ICMR National Centre for Disease Informatics and Research under the National Cancer Registry Programme, whose data are used to estimate the national cancer burden and project future cases.

The NAMS task force report likewise sets the expected course of rising breast cancer cases and late-stage presentation against the gains from earlier detection and wider access to treatment. With the South East Asia Institute for Thalassemia, the University published outcomes of 350 matched-sibling bone marrow transplants for severe thalassaemia and promoted carrier screening before marriage, giving evidence on how screening and transplantation can change the future burden of the disease. These insights provide government agencies and NGOs with actionable evidence to refine strategies and anticipate future challenges.

4. Monitoring and Reporting SDG Interventions

MGUMST plays a key role in tracking and evaluating the progress of health interventions, particularly in cancer control, thalassaemia care and community screening. Through registries, screening programmes and follow-up, the University measures outcomes and shares the findings with policymakers and partners.

One notable example is the Hospital-Based Cancer Registry run with ICMR, under which SRCC collected, entered and reported data on cancer patients throughout 2025. Under the MoU of 15 December 2025 with the Department of Health & Family Welfare, Government of Rajasthan, the Mobile Cancer Screening Van provides mammography, Pap smear testing and oral examination for urban, rural, tribal and remote communities. With the South East Asia Institute for Thalassemia, more than 250 bone marrow transplants for thalassaemia had been carried out by June 2025.

5. Supporting Adaptive Management

MGUMST advocates adaptive management – an approach that allows continuous refinement of programmes based on new evidence and changing needs. Under the University's Institute–Industry Partnership Policy, each MoU has an advisory committee that reviews progress every year. In 2025, this led to the extension of laboratory agreements, new MoUs for advanced mobile screening and telemedicine, and the extension of the rehabilitation partnership from CRC Jamdoli to NILD Kolkata.

Training with national programmes also helps partners refine their practice. National Nutrition Month with POSHAN Abhiyaan was attended by more than 200 ASHA workers, and the "Harit Yoga" programme with the Morarji Desai National Institute of Yoga, Ministry of AYUSH, had more than 850 participants.

MGUMST's Direct Input into National Health Policy

MGUMST faculty contribute directly to national policy reports, guidelines and consensus statements. The most significant in 2025 was the NAMS task force report on breast cancer in India, approved by the DGHS and the Ministry of Health and Family Welfare, Government of India, with Prof. Hemant Malhotra (SRCC, MGMCH) as a task force member. The national policy documents and guidelines published with MGUMST faculty as authors in 2025 are listed below.

Table 1: Published policy documents and national guidelines with MGUMST faculty as authors

S. No.	Policy document / guideline (MGUMST contributor)	Government body / NGO	Publication	Policy contribution
1	NAMS task force report on breast cancer in India (Prof. Hemant Malhotra, SRCC, MGMCH)	National Academy of Medical Sciences (India); approved by the DGHS and MoHFW, Government of India	Annals of the National Academy of Medical Sciences (India), 2025	Identified gaps in diagnosis and treatment; recommended more mammography and pathology services, oncology training and nationwide early detection
2	ISMPO – Breast Cancer in Young Guidelines (Prof. Hemant Malhotra)	Indian Society of Medical and Paediatric Oncology (national NGO)	Indian J Med Paediatr Oncol 2025;46:119–133	National guideline for care of young women with breast cancer
3	Genetic Counselling, Testing and Management of Hereditary Breast and Ovarian Cancer Syndrome in India: Updated Expert Consensus Recommendations (Prof. Hemant Malhotra)	Indian Society of Medical and Paediatric Oncology	Indian J Med Paediatr Oncol, 2025	National consensus on genetic testing and prevention
4	INASL Guidance Statements for Determining Futility in Liver Transplantation (Dr. Naimish N. Mehta, HPB Surgery)	Indian National Association for the Study of the Liver (national NGO)	Journal of Clinical and Experimental Hepatology, 2025	National guidance for transplant decision-making
5	Clinical practice guidelines on cognitive impairment in bipolar disorders – assessment and management (Dr. Manju Bhaskar, Psychiatry)	Indian Psychiatric Society (national NGO)	Indian Journal of Psychiatry, 2025	National clinical practice guideline in mental health

EXECUTIVE SUMMARY

The National Academy of Medical Sciences (NAMS) has acknowledged the rising prevalence of breast cancer in India as a significant public health concern. In response, NAMS established a task force to prepare this report addressing this critical issue. Given that breast cancer is the most common malignancy among women and a leading cause of cancer-related deaths, there is an urgent need for a comprehensive approach to effectively manage the disease.

The task force conducted a comprehensive review of various aspects of breast cancer diagnosis and treatment across India. Highlighting the alarming rate of nearly 200,000 new cases each year,the group identified significant deficiencies in the healthcare system's ability to diagnose and treat breast cancer effectively in the country.

One of the most critical gaps identified was in diagnostic services. The availability of radiodiagnostic techniques and pathology services is concentrated in urban centers, resulting in delayed diagnosis in rural areas. The lack of modern imaging equipment and specialized pathology services in many parts of the country means that many patients do not receive the prompt and accurate diagnosis needed for effective treatment planning.

The task force observed a significant gap in the availability of treatment modalities, such as surgery, radiotherapy, and systemic treatments. While urban hospitals often have access to advanced treatment options, semi-urban and rural areas lack basic facilities and trained oncologists, severely hindering the provision of standard care. This disparity is further exacerbated by a general lack of awareness about breast cancer and its symptoms within the community, resulting in a higher proportion of patients presenting with advanced disease stages at the time of diagnosis.

To address these issues, the task force offers several recommendations. First, there is a critical need to enhance the infrastructure for diagnostics and treatment throughout India. This includes increasing the number of diagnostic mammography units and pathology laboratories equipped to diagnose cancer, as well as expanding training programs in oncology subspecialties.

Additionally, the task force emphasizes the importance of implementing nationwide screening programs focused on early detection. By increasing public awareness through comprehensive education campaigns and enhancing the accessibility of

BEST REPORTS OF MoUs WITH ASSOCIATED / COLLABORATING AGENCIES

Four best reports are presented below – three with government bodies (Government of Rajasthan, ICMR and CRC Jamdoli under the Government of India) and one with a non-government organisation (South East Asia Institute for Thalassemia). Each report gives the partnership, its key contributions to the SDGs, photographs and the evidence of the MoU.

Best Report 1: MGUMST signed MoU with Government of Rajasthan

MGUMST has formalised a Memorandum of Understanding (MoU) with the Department of Health & Family Welfare, Government of Rajasthan, on 15 December 2025, to provide advanced mobile medical van services for screening of cancer, silicosis, sickle cell anaemia and other non-communicable diseases across the state. The MoU was signed at a state-level event and reflects MGUMST's commitment to taking specialised healthcare to communities that have little access to it.

The Department of Health & Family Welfare is responsible for public health programmes in Rajasthan. Through this collaboration, the University's Mobile Cancer Screening Van, stationed at Mahatma Gandhi Hospital, provides on-site mammography, Pap smear testing and clinical oral examination for urban, rural, tribal and remote communities. The MoU is valid for 2025–2027.

Key contributions of this SDG-aligned partnership include:

Promoting Good Health & Well-being (SDG 3): Early detection of cancer, silicosis, sickle cell anaemia and non-communicable diseases through screening at the doorstep.

Reducing Inequalities (SDG 10): Specialized screening for rural, tribal and remote communities that lack diagnostic facilities.

Partnerships for the Goals (SDG 17): A formal State Government–University partnership to deliver and monitor a public screening programme.

Through this collaboration, MGUMST supports the State Government in identifying disease early, reaching underserved populations and generating screening data that help monitor and refine public health programmes.

MEMORANDUM OF UNDERSTANDING (MoU)

This Memorandum of Understanding (MoU) is executed on this 15th day of December 2025, at Jaipur, Rajasthan between: -

Mahatma Gandhi University of Medical Sciences & Technology (MGUMST), Jaipur, having its campus at RIICO Institutional Area, Sitapura, Jaipur- 302022 (Rajasthan) represented by Mr. Pradip Pyne, Registrar, MGUMST, Jaipur (hereinafter referred to as "MGUMST, Jaipur"), of the **First Part**.

AND

Department of Health & Family Welfare, Government of Rajasthan, having its office at Swasthya Bhawan, Tilak Marg, Jaipur 302005, represented by the Director (P.H) of Health and Family Welfare, Government of Rajasthan, and/or his designated officer (hereinafter referred to as "the Department"), of the **Second Part**.

Best Report 2: MGUMST signed MoU with Indian Council of Medical Research (ICMR)

MGUMST, through Mahatma Gandhi Medical College and Hospital and its Sri Ram Cancer & Superspeciality Centre (SRCC), has an MoU with the ICMR-National Centre for Disease Informatics and Research (NCDIR), Bengaluru, for "Hospital Based Cancer Registries in India" under the National Cancer Registry Programme. The signed MoU was forwarded by ICMR-NCDIR to Dr. Hemant Malhotra with its letter of 15 April 2025. The MoU is valid for 2024–2027.

ICMR-NCDIR is the national centre of the Indian Council of Medical Research for disease informatics and runs the National Cancer Registry Programme, which collects data from cancer registries across India. Under the MoU, SRCC collects data on all cancer patients registered at the centre, enters them in the national format, follows up patients and reports to ICMR-NCDIR.

Key contributions of this SDG-aligned partnership include:

Promoting Good Health & Well-being (SDG 3): Reliable data on the number, type and stage of cancers for planning cancer control.

Monitoring and reporting: Data collection, follow-up and reporting throughout January–December 2025.

Partnerships for the Goals (SDG 17): A formal link with the national cancer surveillance system of the Government of India.

As on 11 May 2026, the HBCR dashboard of ICMR-NCDIR shows 3,450 cancer cases entered by Mahatma Gandhi Medical College and Hospital for the year 2025 – 564 completely saved records (286 males and 278 females) and 2,886 partially saved records (1,643 males, 1,242 females and 1 other) that are being completed through follow-up.

Best Report 3: MGUMST signed MoU with Composite Regional Centre, Jamdoli (Government of India)

MGUMST, through Mahatma Gandhi Occupational Therapy College (MGOTC) and Mahatma Gandhi Physiotherapy College (MGPC), signed an MoU with the Composite Regional Centre (CRC),

Jamdoli, on 13 June 2025 at the MGUMST campus. CRC Jamdoli functions under the Pandit Deendayal Upadhyaya National Institute for Persons with Physical Disabilities (PDUNIPPD), Ministry of Social Justice and Empowerment, Government of India. The MoU is valid for 2025–2027.

Composite Regional Centres provide rehabilitation services, human-resource development and awareness for persons with disabilities at regional level. Trained rehabilitation professionals are a key gap in these services, and the partnership links the University's teaching and research capacity with a government rehabilitation centre through faculty exchange, student training and internships, joint research, academic visits and scholarly events.

Key contributions of this SDG-aligned partnership include:

Promoting Good Health & Well-being (SDG 3): Better rehabilitation services for persons with disabilities through trained professionals.

Strengthening Quality Education (SDG 4): Clinical exposure, internships and practical training for occupational therapy and physiotherapy students.

Reducing Inequalities (SDG 10): Support for the inclusion and welfare of persons with disabilities.

Partnerships for the Goals (SDG 17): Joint research and scholarly events that give the government centre evidence and expert input on rehabilitation practice.

A joint institutional meeting on the day of signing agreed the areas of collaboration. The partnership was extended in September 2025 to a second Ministry of Social Justice and Empowerment institute, NILD Kolkata.

Activities with CRC Jamdoli in 2025

Global Accessibility Awareness Day, 21 May 2025: MGOTC organised a national-level awareness programme with CRC Jamdoli on the theme "Committing to Change". A total of 120 participants, including participants from outside MGUMST, attended, and the event was covered in the local press.

World Duchenne Muscular Dystrophy Day, 7 September 2025: An awareness workshop on the theme "Family: the heart of care" was held in collaboration with the CRC, Ministry of Social Justice and Empowerment, Government of India, with 143 participants.

National-level CRE programme, 20–21 November 2025: MGOTC, with the Composite Regional Centre for Skill Development, Rehabilitation and Empowerment of Persons with Disabilities (CRC), Jaipur (PDUNIPPD, DEPwD, MSJ&E, Government of India), organised a two-day national-level Continuing Rehabilitation Education (CRE) programme, "Disability Rights & Status in India: Policies & Programs", at the R. L. Swarankar Auditorium, MGUMST. The programme engaged rehabilitation professionals directly with national disability policies and programmes.

EVENT REPORT

Program Title	Two-day National Level CRE Programme – "Disability Rights & Status in India: Policies & Programs"
Organised by	Mahatma Gandhi Occupational Therapy College, MGUMST, in collaboration with CRC Jaipur (PDUNIPPD, DEPwD, MSJ&E, Government of India)
Date and Time	20–21 November 2025, 10:00 AM to 5:00 PM
Venue	R. L. Swarankar Auditorium, MGUMST, Jaipur
Key Points	Rights of persons with disabilities; national policies and programmes for persons with disabilities; role of rehabilitation professionals

Page 1 of 11

Fig. 20: MoU between MGUMST and CRC, Jamdoli – page 1, executed on 13 June 2025

Best Report 4: MGUMST signed MoU with Non-Government Organisation

MGUMST, through its Sri Ram Cancer Centre (SRCC) and the Departments of Pediatrics and Medicine, MGMCH, has an MoU with the South East Asia Institute for Thalassemia (SEAIT), Jaipur. The MoU of 23 August 2020 was revised and extended on 23 August 2022 and is valid until 2032.

SEAIT is a non-profit, apolitical and secular organization working to improve the cure of children with blood disorders such as haemoglobinopathies and cancer, irrespective of gender, ethnicity, religion or region.

Under the MoU, SEAIT supports a bone marrow transplant network for low-risk children with transfusion-dependent thalassemia and screens first-degree relatives of transplant candidates for the carrier state, while SRCC provides space, infrastructure and staff.

Key contributions of this SDG-aligned partnership include:

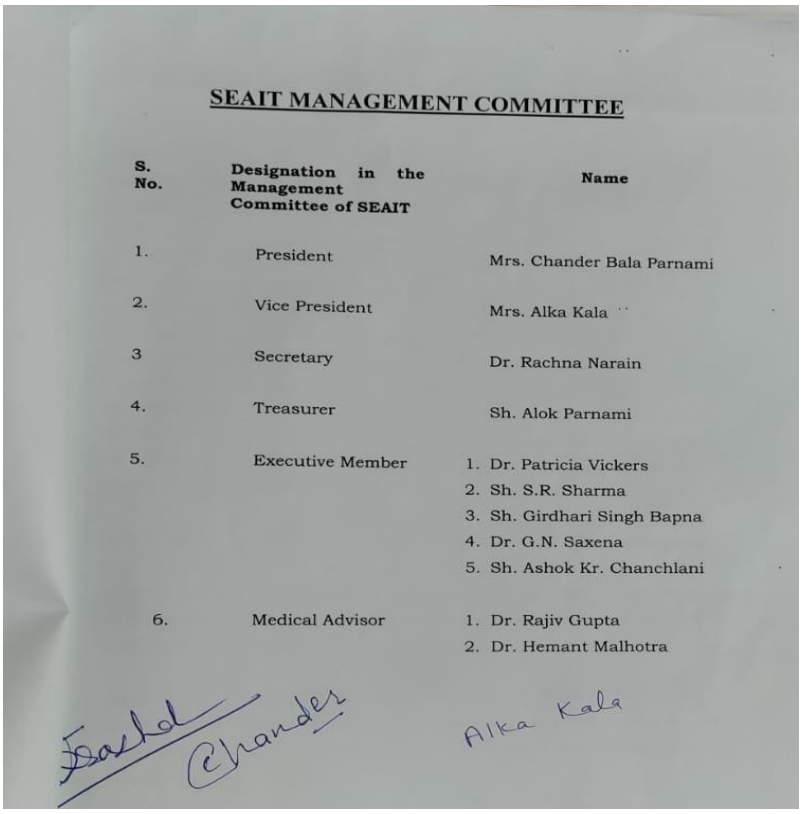

Promoting Good Health & Well-being (SDG 3): Curative bone marrow transplantation – more than 250 transplants for thalassemia by June 2025.

Reducing Inequalities (SDG 10): Treatment for children with thalassemia irrespective of background.

Research for Policy (SDG 17): Publication of outcomes of 350 matched-sibling transplants for severe thalassemia (Transplantation and Cellular Therapy, 2025, Dr. Priya Marwah).

Prevention in the Community (SDG 3): Carrier screening of families and public messages on screening before marriage.

Prof. Hemant Malhotra of SRCC, MGUMST, serves as a Medical Advisor on the SEAIT Management Committee, giving the University a direct role in guiding the NGO's programmes.

MEMORANDUM OF UNDERSTANDING

In continuation of the MEMORANDUM OF UNDERSTANDING Dated: 23.08.2020 the MEMORANDUM OF UNDERSTANDING is hereby further revised/ extended and entered on this 23rd day of August Two Thousand Twenty Two by and between **Sri Ram Cancer Center (SRCC)** represented by its duly authorized signatory Dr. Sudhir Sachdev S/o (Late) Shri N. L. Sachdev Aged about 61 years having place of business at Mahatma Gandhi University of Medical Sciences & Technology, Sitapura, Jaipur R/o 248/4, Vashishtha Marg, Rajapark, Jaipur-302004 hereinafter referred to as party of the FIRST PART (which expression shall unless repugnant to the context thereon means and includes its successors, assignees, liquidators, administrators, authorized representatives and nominees if any, AND the **South East Asia Institute for Thalassemia (SEAIT)** having office at B-25, Govind Marg, Rajapark, Jaipur, Rajasthan represented by its authorized signatory Mrs. Chandra Bala Parnami aged about 75 years hereinafter referred to as the party of SECOND PART (which expression shall unless repugnant to the context thereon means and includes its successors, assignees, liquidators, administrators, authorized representatives and nominees if any).

THAT WHEREAS the SEAIT is a non-profit, apolitical and secular organization pursuing improvements in the cure of children blood disorders such as Hemoglobinopathies & cancer irrespective of gender, ethnicity, religion or geographical area, SEAIT programs and projects will focus on medical care as well as on prevention and family support patient management of patients with such disorders.

Whereas SEAIT, intends to support a bone marrow transplant network for the cure of low-risk children with transfusion-dependent thalassemia in India as well as to screen first degree relatives of transplant candidates for thalassemia carrier state and engaged in the said work since more than 10 years.

AND WHEREAS the Sri Ram Cancer Centre, Jaipur (SRCC) by its building space, infrastructure facility and manpower/staff is interested to continue with the collaboration with SEAIT to carry on the above said project of the SEAIT Foundation AND FINALLY WHEREAS looking to the similar object and aims of the parties hereto, it is decided and mutually agreed by and between both the parties hereto to further continue and carry on the above said SEAIT project jointly further w.e.f. 23.08.2022 on the following mutually agreed terms and conditions:-

Fig. 22: MoU between SRCC, MGUMST and South East Asia Institute for Thalassemia (revised and extended on 23 August 2022)

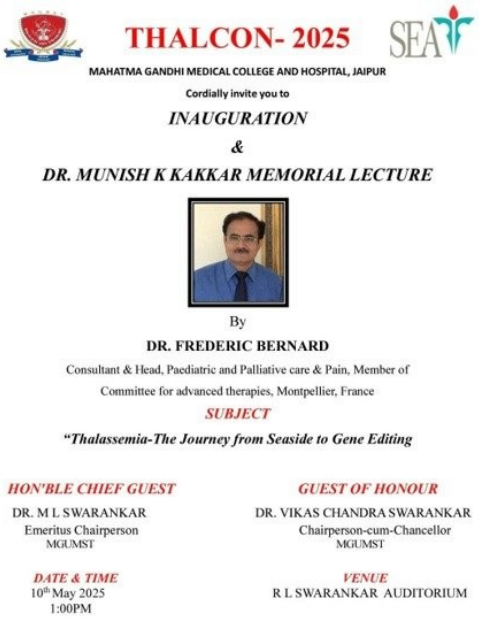

Involvement of MGUMST with the NGO – THALCON–2025

Mahatma Gandhi Medical College and Hospital organised THALCON–2025 with the South East Asia Institute for Thalassemia on 10 May 2025 at the R L Swarankar Auditorium, MGUMST. The programme included the inauguration and the Dr. Munish K Kakkar Memorial Lecture by Dr. Frederic Bernard, Consultant & Head, Pediatric and Palliative Care & Pain, Montpellier, France, on "Thalassemia – The Journey from Seaside to Gene Editing". Dr. M L Swarankar, Emeritus Chairperson, MGUMST, was the Chief Guest and Dr. Vikas Chandra Swarankar, Chairperson-cum-Chancellor, MGUMST, was the Guest of Honour.

The event carried a public message on thalassemia carrier screening before marriage and was covered in the press and on social media. It supported SDG 17 by showing MGUMST's continuing partnership with an NGO to prevent and cure thalassemia.

EVENT REPORT

Other MoUs with Government and Professional Bodies

National Institute for Locomotor Disabilities (Divyangjan), Kolkata

MGUMST signed an MoU with the National Institute for Locomotor Disabilities (Divyangjan) (NILD), Kolkata, an autonomous body under the Ministry of Social Justice and Empowerment, Government of India, on 26 September 2025 at Jaipur. The MoU (2025–2028), implemented through MGOTC and MGPC, provides for student training, faculty and staff exchange, scientific events and research collaboration for the welfare of persons with disabilities. MGUMST participated in the World Disability Day 2025 celebration at NILD, Kolkata, on 3 December 2025. A copy of the MoU is given in Annexure 4 (MoU-4).

Consortium of Accredited Healthcare Organizations (CAHO), New Delhi

MGUMST, through Mahatma Gandhi College of Hospital Administration (MGCOHA), signed an MoU with CAHO, a national not-for-profit body of accredited healthcare organizations, on 13 April 2025 (valid 2024–2029) for research, training, consultancy and student welfare. The MoU documents were exchanged on stage at CAHO's national event "Enhancing Quality Through Collaboration – Transforming Healthcare Together" in April 2025, with MGUMST as knowledge partner. A copy of the MoU is given in Annexure 4 (MoU-11).

Fig. 31: Exchange of MoU documents with CAHO at the national event "Enhancing Quality Through Collaboration", April 2025

On 26 September 2025, MGCOHA held the first Advisory Board meeting of its Centre of Health Management Excellence (HMX), chaired by the Vice Chancellor, Dr. Achal Gulati. Dr. Lallu Joseph, Secretary General of CAHO, attended as a member along with senior leaders from healthcare, hospital administration and the pharmaceutical industry.

Minutes of the First Advisory Board Meeting

Centre of Health Management Excellence (HMX)
Date: 26th September 2025
Venue: 5th Floor, R K Block, MGUMST, Jaipur
Rapporteur: Dr.Sandeep Narula

Rekhi Centre of Excellence for the Science of Happiness – Rekhi Foundation

Under the MoU with the Rekhi Foundation for Happiness, the first meeting of the Project Coordination Committee of the Rekhi Centre of Excellence for the Science of Happiness (RCESH) was held on 17 October 2025 in hybrid mode at the Centre for Yoga, Wellness and Integrative Medicine (CYWIM), MGUMST, chaired by Dr. Ishwar V. Basavaraddi. Prof. Tanusree Dutta, Dr. Riya and Ms. Ishmeet Kaur represented the Rekhi Foundation. The committee decided to introduce a value-added course on the Science of Happiness, include it as an elective in the CYWIM curriculum, set up a research laboratory and hold a conference and certificate course on World Meditation Day in December 2025.

Fig. 38: First Project Coordination Committee meeting of RCESH with Rekhi Foundation (hybrid mode), 17 October 2025

MINUTES OF THE MEETING

Project Coordination Committee Meeting of the Rekhi Centre of Excellence for the Science of Happiness (RCESH), MGUMST.

- **Date:** 17th October 2025
- **Time:** *11:30 AM*
- **Venue:** Centre for Yoga, Wellness & Integrative Medicine, Ground Floor, Medical College Building
- **Mode:** Hybrid

A meeting of the *Project Coordination Committee* of the **Rekhi Centre of Excellence for the Science of Happiness (RCESH), MGUMST** was held on **17th October 2025** at **11:30 AM** in the *Yoga Hall, Ground Floor, Medical College, Building* in the **Centre for Yoga, Wellness and Integrative Medicine (CYWIM)**, *Mahatma Gandhi Medical College & Hospital, Jaipur*, a constituent college of **Mahatma Gandhi University of Medical Sciences & Technology (MGUMST)**.

The meeting was chaired by **Dr. Ishwar V. Basavaraddi,** Chairperson, Project Coordination Committee, RCESH. The list of the participants is as under:

S. No.	Name	Organization	Position in the Committee
1	Dr. Ishwar V. Basavaraddi	MGUMST	Chairperson
2	Dr. Sunil Sharma	MGUMST	Member
3	Prof. Tanusree Dutta	On behalf of Rekhi Foundation	Nominated by Dr Rekhi Singh
4	Dr. Riya	On behalf of Rekhi Foundation	Nominated by Dr Rekhi Singh
5	Ishmeet Kaur	On behalf of Rekhi Foundation	Nominated by Dr Rekhi Singh
6	Kedar Singh Negi	MGUMST	Member Secretary

At the onset, the chairperson welcomed all the members and nominated members of the committee, followed by self-introduction.

Agenda Items and Decisions:

1. **Introduction of Value-Added Course**

The Chairperson proposed that the Centre initiate academic activities by introducing a **2-credit Value-Added Course** (1 credit Theory + 1 credit Practical) on *"Science of Happiness."*

This course will serve as an introductory module to familiarize students with the philosophy and practical dimensions of science of happiness and well-being.

Fig. 39: Minutes of the first Project Coordination Committee meeting of RCESH, 17 October 2025

IAP-CPR Training – Indian Academy of Pediatrics

MGUMST is accredited by the Indian Academy of Pediatrics as an IAP CPR Centre. On 25 January 2025, the Department of Pediatrics conducted an IAP-CPR training programme with lectures and hands-on practice on manikins, building life-saving skills among doctors, nurses and other health professionals.

Conclusion:

MGUMST plays a crucial role in advancing SDG policy development through its expertise in identifying challenges, shaping policy and guidelines, modelling outcomes, monitoring interventions and promoting adaptive management. By working collaboratively with central and state governments, NGOs, professional societies and communities, MGUMST ensures that health policies are grounded in research and responsive to emerging national and local needs.

Its steadfast commitment to SDG-focused research and policy engagement positions MGUMST as a vital partner in driving progress towards a healthier and more equitable future. MGUMST also plays an active role in **policy making** by contributing expert knowledge, research evidence and clinical recommendations to government bodies and national organisations. Faculty members serve on **national task forces, guideline committees and professional society panels**, where they offer valuable inputs on cancer control, transplantation, mental health, rehabilitation and public health.

MGUMST's proactive engagement through 32 MoUs in force in 2025 highlights the importance of working with government and external agencies to strengthen institutional contributions towards sustainable development. By offering expert guidance and participating in structured partnerships, MGUMST continues to influence positive change and support national development priorities.

Annexure 1: List of MoUs Valid for the Calendar Year 2025

Annexure 3: Policy / SoP for MoUs and Collaborations

MoUs and collaborations at MGUMST are governed by the University's **Policy Document on Institute–Industry Partnership (IIP)**. The policy applies to all constituent colleges and covers

partnerships in medical sciences, technology, health management, allied health, informatics and innovation, including MoUs with industries, R&D bodies, hospitals and start-ups.

Standard operating procedure for an MoU (Section 7 of the policy)

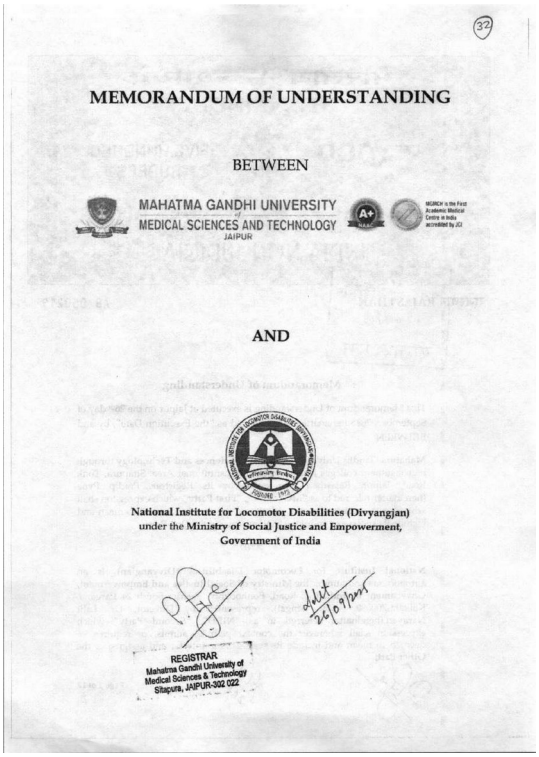

Step	Responsibility	Action
1	Initiating faculty member	Submits the request on the General Information Form (Annexure-I) with a draft MoU, classed as academic without financial involvement or academic with financial involvement
2	Head of Department	Reviews and countersigns the draft
3	Dean / Principal	Reviews and approves
4	Head, IIP Cell	Examines and forwards
5	Legal Cell	Vets legal compliance
6	Finance Officer	Assesses financial implications
7	Registrar	Reviews and forwards
8	Pro-President	Reviews and recommends
9	President, MGUMST	Gives final approval
10	Registrar and Principal Investigator	Registrar signs and stamps the final MoU, co-signed by the PI

The IIP Cell allows four weeks for revisions and deliberation. A **MoU Advisory Committee** of senior faculty and partner experts is formed for each MoU to guide the partnership and review its progress every year. Outcomes are tracked through the number of MoUs, internships, visits and workshops, joint projects, placements and feedback, and the policy is reviewed periodically by the IIP Advisory Committee.

Source: MGUMST, "Policy Document on Institute–Industry Partnership (IIP)" – www.mgumst.org/Uploads/moduleimg/302imguf_MGUMSTIndustryInstitutePartnershipPolicy.pdf

Annexure 4: Copies of Other MoUs Valid in CY 2025

MoU numbers match the S. No. of Annexure 1. MoUs with the Government of Rajasthan, ICMR, CRC Jamdoli and SEAIT are given with the Best Reports.

MEMORANDUM OF UNDERSTANDING

Between

Faculty of Physiotherapy
Mahatma Gandhi University of Medical Sciences & Technology
RIICO Institutional Area, Sitapura, Jaipur, Rajasthan-302022, India

AND

DEPARTMENT OF PHYSIOTHERAPY, JANARDAN RAI NAGAR RAJASTHAN VIDYAPEETH (DEEMED-TO-BE) UNIVERSITY,
Dabok, Udaipur, Rajasthan- 313022, India.

Whereas the above-named institutions realise that a Memorandum of Understanding (MOU) would be of mutual benefit and would serve as an indication of continued interest in academic cooperation, it has been agreed mutually to perform following activities:

1. Each institution will promote one or more of the following activities based on their respective Academic and Industrial needs:

A. Curriculum Design	F. Skill Development Programs
B. Industrial Training & Visits	G. Guest Lectures
C. Internships for Students	H. Faculty Development Programs
D. Placement for Students	I. Exchange of faculty & Students
E. Research and Development	J. Organizing Academic Meetings

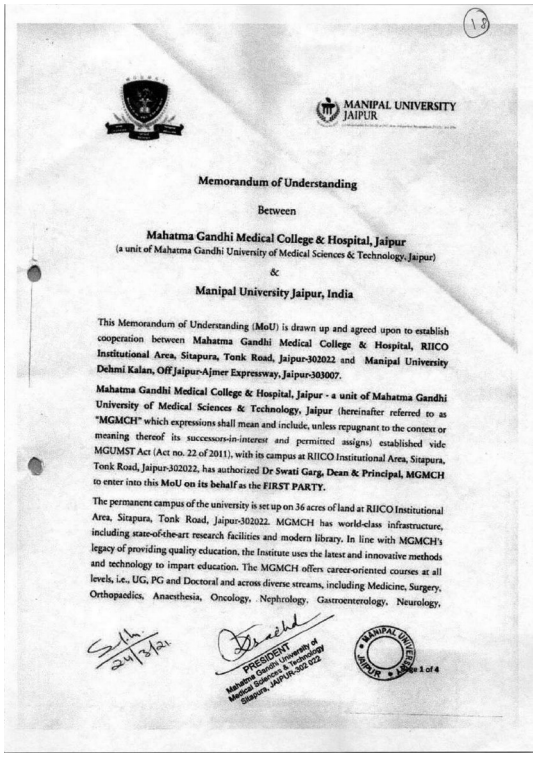

2. Specific exchanges or activities to be developed under the framework of this MOU shall be mutually discussed and agreed upon in writing by both parties prior to the initiation of that activity. Terms of cooperation and details of exchanges, joint programs or activities shall be developed through bilateral discussion and agreement on a case-by-case basis and attached as additions succeeding to the signing of this MOU.
3. Each institution shall appoint respective coordinators at the appropriate time for the specific activities agreed upon.
4. This MOU will become effective on the date of the last signature. It shall remain in force for a Period of five (5) years with the understanding that either institution may terminate it by giving 30 days' notice to the other party in writing, unless an earlier termination date is mutually agreed upon. The MOU may be amended or extended by mutual written consent of the Parties.

The parties hereby establish this MOU by duly signing it as of the respective date below.
