## WISE ,UNWISE OR OTHERWISE...

Ved,Puran , Upnishad and Indian epics like Mahabharat and Ramayan offer brilliant insights into management philosophy. With the latest trend of interest of general public and professionals across generation and demography, time is not far when Indian Knowledge System (IKS) as a body of contemporary knowledge blending multi-disciplines will shift aisles from back to front in libraries.

I will like to take this opportunity, through this newsletter, to offer one wisdom bite at a time on this very topical theme. This one draws inspiration from a segment by Dr Devdutt Pattanaik in his tele-series Business Sutra.

Management philosophy of any manager can be explained with a two-factor framework of upholding or not upholding principles and following or not following rules resulting in a 2x2 matrix as follows.

Some characters of Mahabharat and Ramayan are mapped here. Time for you to think; Where are you? And where would you like to be? Meet me at 9929254625, if you seek more insight on this. Happy managing!!!
