		Institutional Development Plan	Link: https://www.mgumst.org/assets/images/pdf/6.2.1-Strategic-Plan-document.pdf The Strategic Plan of the University is made keeping five pillars in mind to achieve excellence -People, Discovery, Education, Health Care and Community Service: 1. People: To recruit, develop, and retain the best faculty, staff, and learners who work together for the greater good. 2. Discovery: To increase the faculty's competitiveness and their ability to pursue major scientific questions in a rich and diverse environment that leads to discoveries that inspire new preventions, treatments, and cures. 3. Education: To create a safe, effective, and learner-focused environment to support the growth and development of faculty, staff, trainees, and students that engage in education for the advancement of medical and allied science, health and healthcare delivery. 4. Health Care: To deliver outstanding patient care and improve health for local, state, national, and global populations while caring for each other. The University shall extend its full support to make the National health programs successful and support the Government in any national medical emergency 5. Community Service: To engage and collaborate with other institutional, local, state, national and global communities for advancement in health care system. The mechanism of deployment of the Strategic Plan is through the continuous and various efforts put in by the University. Steps have been taken to organize CMEs, workshops and conferences at state, national and international level in all constituent colleges of the University. To promote interdisciplinary research, faculties are encouraged to take more research projects and publications. NABH accreditation of hospital and blood bank and NABL accreditation of the lab are being continuously upgraded. The University works towards organizing faculty development programs (FDPs), for teaching and non-teaching staff for their professional skill development. It works towards developing online academic programs, simulation lab, skill lab, e-class rooms which is the future of education.
